07 See you next time!

Welcome to the December Creativity Connection! ❄️✨

The holiday season is here, and we're filling this month with a little extra magic, imagination, and creativity! From festive fun and special activities to upcoming performances, holiday happenings, and ways to keep the creativity going at home, there's something for everyone to enjoy.

December is a time to celebrate the joy of creating, the friendships we've made, and the special community we continue to build together. So grab a cup of cocoa, get cozy, and take a peek at what's happening around AIDA this month!

Wishing you a December filled with creativity, connection, and a little holiday sparkle! 💜 *~Ms.Michelle, Owner/Director*

CREATIVITY CORNER

Create – Imagine – Be You!

SNOW MUCH FUN!

CREATE YOUR OWN WINTER WONDERLAND

You'll Need:

- Blue construction paper or cardstock
- White cotton balls
- White school glue
- Black construction paper
- Orange construction paper
- Colorful paper scraps for a scarf
- Brown paper for twig arms
- Googly eyes or black markers
- Buttons (optional)
- Scissors
- Glitter or snowflake stickers (optional)

Let's Make It!

1. Build Your Snowman!
Glue cotton balls onto your blue paper in two or three stacked circles. Make a larger bottom and a smaller top for your snowman's body and head.

2. Give Him a Face!
Add googly eyes, a little orange paper carrot nose, and a smile made from small black paper circles or marker dots.

3. Dress for the Weather!
Cut a hat from black paper and design a colorful scarf using your favorite paper scraps. Add buttons down the front.

4. Let It Snow!
Add cotton-ball snow along the bottom of your page. Decorate the background with paper snowflakes, winter trees, or falling snow.

5. Add Your Own Magic!
Give your snowman a name, a personality, and maybe even a little winter adventure!

A Creative Challenge!
What would your snowman do on a snowy day? Build him a friend, a pet, or even an entire snowman family**!**

Don't forget to share it with your family and friends and tag @artsinspireddanceacademy

Growing MINDS

Children Learn, Grow & Discover

Every child learns and develops in their own special way, and that's perfectly okay! Sometimes learning looks like dancing, jumping, and creating. Other times, it's quietly exploring a puzzle, sorting shapes, or figuring out where a piece belongs.

Even simple activities help build important skills like problem-solving, coordination, concentration, and confidence. At AIDA, we believe in meeting children where they are, encouraging curiosity, and celebrating every little discovery along the way.

Because growing doesn't look the same for everyone!

Kind, curious, capable...

just as they are!
